this book systematically assesses the political and social values of the more than 1.3 billion catholics around the globe by far the largest denomination of western christianity based on an extensive analysis of data from the world values survey and other global opinion surveys the book sheds new light on the value systems and opinions of roman catholics the authors highlight core problems and challenges the church is currently facing in adapting to the modern world including catholic anti semitism religious and sexual tolerance and opinions towards democracy while also offering an anthropological reflection on how well the church is adapting or failing to adapt to the requirements of an open society

we live in a world of fast paced change that is being fueled by new technologies changing personal and social relationships and changing cultural values

and economic conditions sociology is a discipline that can help you understand this change looking at their world through the sociological perspective enables students to better understand themselves and their place in an evolving and complex world designed for today's students think sociology shows you how sociologists think and how to understand the rapidly changing world they live in

this book discusses the role played by powerful global institutions such as the imf the world bank the world trade organisation multinational corporations and the international credit rating agencies in keeping africa marginalised in the world economy the book focuses on the intrusive roles of these institutions as enablers and beneficiaries of capital outflows and financial subordination in africa diverging from the official narrative that touts china and the other emerging economies as global reformers that are poised to partner africa in its fight against financial subjugation the book instead argues that like the western powers the emerging economies are benefiting prodigiously from a rigged global financial system that keeps africa as a net creditor to the rest of the world the book draws its theoretical framework from the repressed heterodox theories including dependency core periphery world systems and marxist theories as well as the decolonial approach it concludes with a call for a decolonial african agency that should champion an epistemic rebellion against the neo liberal and neo classic economic traditions that have been historically deployed to justify africa's subordinated position in the global economic governance this book comes at moment in time when africa is ready to become a rule maker not a rule taker the analysis dr moyo presents having been in the front line of public policy and international negotiations demonstrate the need for africa to re write the rules to foster our own transformation jason rosario braganza executive director african forum and network on debt and development afrodad

as the world faces extreme economic environmental and political crises this bold and accessible advanced introduction argues for a future facing approach to the creative economy and creative innovation the book analyses contemporary and historical arts and culture whilst assessing historical shifts from national to global cultures analogue to digital technologies and individualist to systems thinking
